The Animal Journey

Through the Neutering Market

Version 1.1-EN – 12.2.2022

The Request
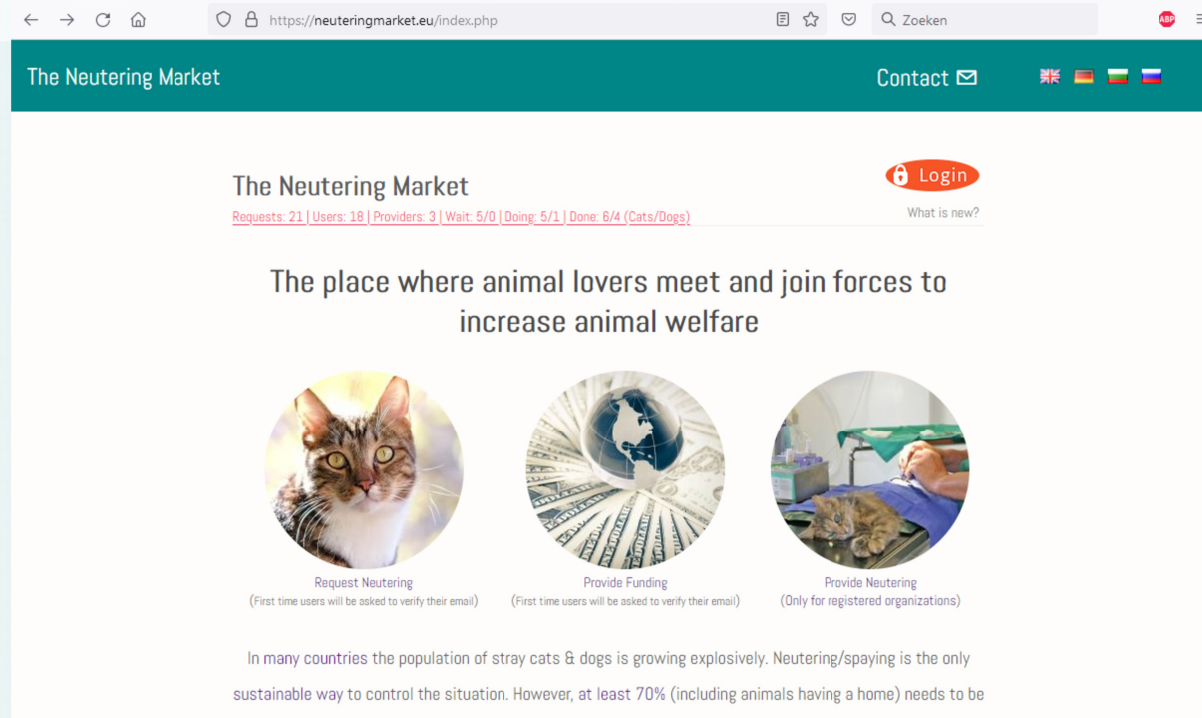

- Go to https://neuteringmarket.eu and click on "Request Neutering".

- If this is the first time you use the market, your email will be verified to make sure it is working properly.

- Once your email is verified, you will need to click on "Request Neutering" again.

- A form will open where you can fill in the details of your request (see next page).

The Request

Transport ☐ available?   Shelter ☐ available?

Country: [BULGARIA]
Region: [Blagoevgrad]
Settlement: [City + postal code (max 30)...]
Address: [Street, house number (max 30)...]

Additional information:
[Max 1000 chars...]

- Accept the "Terms & Conditions" by ticking the checkbox next to it.
- Select a photo of the animal and upload it.
- Fill in the name, sort and status of the animal.
- Fill in your information. The email you have used to start the request is auto-filled and cannot be altered. Make sure you provide valid information, otherwise your request will be denied.
- Complete the Captcha verification and click on Submit.
- Your request is submitted and you will get an email confirmation of it.
- An operator will review your request and approve (or deny) it. If approved, people on the marketplace will be able to find it and provide funding.

The Funding
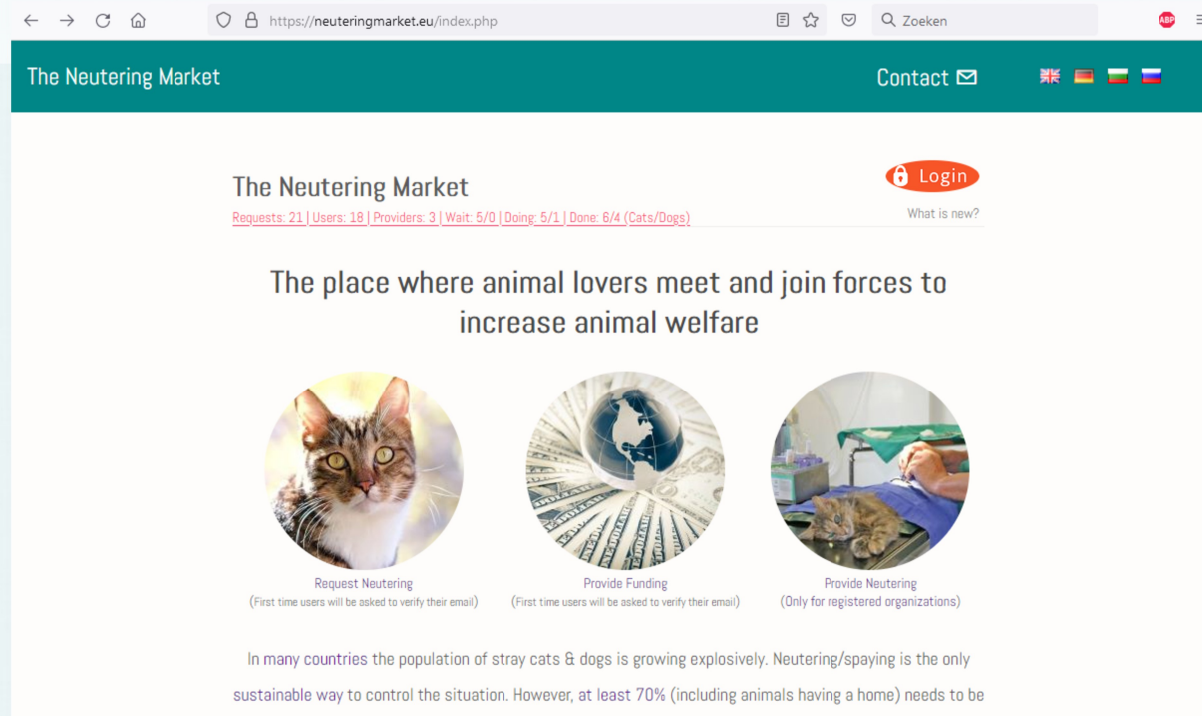

- If you want to fund sterilization of an animal, click on "Provide Funding" on the main page.

- If this is the first time you visit the market, your email will be verified to make sure it is working properly.

- Once your email is verified, you will need to click on "Provide Funding" link again.

- A page will open where you can see/filter all available requests to fund (see next page).

The Funding

- Set the filters, tick the checkbox next to "Terms & Conditions" and press Search.

- A list of requests that are available for neutering should appear.

- Click on the "Fund" button of the animal you would like to help.

- A new form will open…

Click on the Fund button to support. Repeat search if the list is empty.

Request Number	Animal name	Sort	Sex	Status	Animal photo	Country	Additional information	Price [EUR]	Supplier	Created	Last modified
87 [Fund]	Danny & Marry	cat	female	Stray		BULGARIA	Danny and Marry are two stray cat, male and female. They were difficult to catch so it is important that they are neutered fast, it may be impossible to catch them a second time.	80	Fluffy Paws of Bulgaria	2022-02-03 21:26:40	2022-02-03 21:27:37
88 [Fund]	Honey	cat	male	Stray		BULGARIA	Honey is the most beautiful female cat that had the most unfortunate fate. She had suffered an accident and one of her legs had to be amputated. Nevertheless, Honey is a fighter and has recovered well from the operation. Now she is ready for castration, after that we will continue taking care of her until she finds adopters.	60	Fluffy Paws of Bulgaria	2022-02-03 21:33:35	2022-02-03 21:34:20
89 [Fund]	Titi	cat	female	Stray		BULGARIA	Titi was caught last week and was treated with antibiotics because she was a bit sick. She is doing better now and is scheduled to be neutered next Thursday 13.02. She will be released afterwards if we do not find a foster home for her.	30	TNR Bulgaria	2022-02-04 14:25:48	2022-02-04 15:06:29
90 [Fund]	Fini	cat	female	Stray		BULGARIA	Fini is a beautiful female stray cat that often comes to our garden. She needs neutering fast as she seems the right age to get pregnant. We will take care for her until she recovers.	60	Fluffy Paws of Bulgaria	2022-02-05 15:40:43	2022-02-05 15:41:16

Edit Profile | Change Password | My Overview | Back to Market | Logout

- Organizations logging in the first time will need to complete their profiles and set a password.

- The information in the profile will be shared with Funders in case they decide to fund a request belonging to this organization.

- If the profile is completed, organizations can approve/deny requests, confirm availability of fundings, plan neutering and close requests by providing evidence of neutering.

- Both Requesters and Funders will get email notifications once the status of their request is changed.

- Closed or denied requests will be stored for 1 year after last update as reference. After one year they will be automatically cleaned from the system.

- In the future, cumulative reporting and rating of organizations might be provided as additional services.
